DOCUMENT 01 · STRATEGY

Business Plan

12-month operating plan plus 5-year projection for NetWebMedia — an AI-native fractional CMO productized for SMBs. Market sizing, financial forecast, cohort economics, scenarios, and risk.

CEO: Carlos Martinez **Date:** April 21, 2026 **Horizon:** May 2026 – April 2027

CONTENTS

01 Executive Summary

2026-04-21 PRICE REPOSITIONING

fCMO tiers repriced to $249 / $999 / $2,490 monthly. Setup fees: $0 / $499 / $999. Financial model rebuild pending (finance-controller). Carlos26 promo retired same date.

NetWebMedia is an AI-native marketing agency that replaces the traditional 8-person marketing department with a single productized retainer: a Fractional CMO backed by a stack of AI agents and our own vertically-integrated software (CRM, CMS, Video Factory, AEO/SEO engine, paid-media automation).

ONE-LINE POSITIONING

"HubSpot's polish + GoHighLevel's white-label economics — run by AI, priced for SMBs."

Three revenue products

1. — $249 / $999 / $2,490 per month (flagship, repriced 2026-04-21)
2. — CRM/CMS/tools at $49 / $249 / $449 entry tiers (wedge)
3. — websites, AI automations, AEO migrations (one-time)

12-month targets

EXIT MRR	ARR RUN-RATE	PAYING CLIENTS	GROSS MARGIN	CASH-FLOW POSITIVE
$85k	**$1.02M**	**90**	**72%**	**M4**
from ~$12k start	by April 2027	45 retainer + 45 platform	AI-agent execution	bootstrapped

Answer Engine Optimization (AEO) is displacing SEO as ChatGPT, Claude, Perplexity, and Google AI Overviews consume the top of the funnel. Legacy agencies are slow to retool. NetWebMedia is already built on that thesis, with published playbooks, 50 US state pages indexed, and a full tooling stack owned in-house.

02 Company Overview & Mission

NetWebMedia, founded and solely owned by Carlos Martinez (CEO).

Operator-led, AI-native. No traditional payroll; execution runs on agent-orchestrated workflows (12 role-specific agents in `.claude/agents/` mirroring a full agency org chart: CMO, Sales Director, Product, Engineering Lead, Content Strategist, Creative Director, Data Analyst, Ops Manager, Customer Success, Finance Controller, Project Manager, CEO Assistant).

Mission

Give SMB and mid-market brands the marketing leverage of a Fortune-500 CMO at the price of a senior hire's weekly lunch budget.

Vision (3-year)

Be the default "AI Fractional CMO" citation on ChatGPT and Perplexity for the query *"how does a small business run marketing with AI in 2027."* If we own that citation, we own the category.

Core values (operating, not poster)

- Revenue or silence.
- Ship the brand, not the busywork.
- Own the tools — don't rent our margin to SaaS vendors.
- Bilingual by default (US English + LATAM Spanish).

03 Products & Services

3.1 Flagship: Fractional CMO Retainer

Tier	Price	Setup	Scope
AEO Starter	$249/mo	$0	AEO + SEO strategy, monthly content calendar, SEO audit, NWM CRM included. Self-serve onboarding + monthly async strategy note (no live calls at this tier). **90-day upgrade credit:** $249 applied toward Growth/Premium if upgraded within 90 days.
CMO Growth MOST POPULAR	$999/mo + ad mgmt fee	$499	Everything in Starter + paid ads management ($5k–20k spend), monthly strategy call, email nurture, attribution dashboard. **Ad spend billed at cost + 12% management fee (min $300/mo).**
CMO Premium	$2,490/mo + ad mgmt fee	$999	Everything in Growth + AI SDR outbound, short-form video (12 assets/mo), demand-gen campaigns, weekly strategy call, quarterly OKR planning. **Ad spend billed at cost + 12% management fee (min $300/mo).**

- 90-day minimum, month-to-month thereafter.
- (bumped from 5%). Starter $2,540/yr · Growth $10,190/yr · Premium $25,490/yr. Net-15 invoicing on annuals.
- (Growth + Premium): 12% of monthly ad spend, min $300/mo. Billed separately from retainer. Industry-standard — was previously missing from the model.
- $249 credited toward first month of Growth or Premium if upgraded within 90 days of signup. Starter is a wedge, not a revenue pillar — Premium clients are worth ~17× a Starter client (see cohort data, §9).

3.2 Platform SKUs (self-serve, wedge tier)

SKU	Price	What it is
NWM CRM Starter	$49/mo	Single seat, 1,000 contacts, core CRM/pipeline/email
NWM CRM Pro	$249/mo	5 seats, 10,000 contacts, automation builder, 46 modules, SMS/WhatsApp
NWM Agency / White-label	$449/mo	Unlimited sub-accounts, resell at your own price, full-stack CMS + CRM + Video Factory

Platform customers convert to retainer at ~12–18% within 6 months.

3.3 Project Services (one-time)

- AI Website Build: $2,500–$9,000
- AI Automation Build: $1,500–$8,000
- AEO Migration Audit: $997
- Custom AI Agent: $3,000–$12,000

04 Market Sizing (2026)

Layer	Scope	Estimate	Logic
TAM	Global SMB marketing services + marketing SaaS	$512B	IDC/Gartner: SMB mktg services ~$380B + mktg SaaS $132B
SAM	English + Spanish-speaking SMBs, 5–200 employees	$48B	~14M SMBs × avg $3.4k/yr addressable spend
SOM (Y1)	SMBs evaluating fractional CMO OR AI-native marketing in 12mo	$1.1B	~320k qualified buyers × $3.5k ACV
SOM (Y3)	Same, post-AEO adoption curve	$3.8B	3.4× expansion as ChatGPT search hits 22% of queries

KEY UNLOCK

Our SOM is not limited by TAM — it's limited by sales capacity. With 12 AI agents + Carlos, theoretical capacity at steady state is ~400 concurrent clients before hiring humans.

```
SMB Marketing Spend 2026 — where the $48B SAM sits
────────────────────────────────────────────────
Agencies (trad)       ████████████████████  $19.2B (40%)
In-house + freelance  ██████████████        $13.4B (28%)
Marketing SaaS        ██████████            $9.6B  (20%)
Fractional CMO/CSO    ███                   $2.9B  (6%)   ← our wedge
AI-native providers   ██                    $2.9B  (6%)   ← our home
```

05 Target Market & ICP

Primary ICP: “The $1M–$20M SMB with no CMO”

- $1M–$20M ARR
- 5–50 employees, 0–1 marketing staff
- Founder doing marketing nights/weekends; last agency was a $10k/mo disappointment; not showing up in AI search
-
  1. Professional services (legal, accounting, consulting)
  2. Hospitality (hotel groups, boutique chains)
  3. Healthcare clinics (dental, veterinary, medical aesthetics)
  4. Beauty/wellness (salons, spas, barbershops)
  5. Real estate teams
- 70% US / 30% LATAM (Chile, Mexico, Colombia)

Secondary ICP: White-label agencies

Sub-$5M marketing agencies who want to stop paying HubSpot $2,170/mo while their clients churn. We sell them the $449/mo Agency tier; they resell at $997–$1,997/mo.

Tertiary ICP: Solopreneurs DIY-ing

$49/mo CRM self-serve. Low ARPU, but the funnel fuel for tutorials, community, and referral loops.

06 Competitive Landscape

6.1 Positioning Map — Price × AI-Native

```

READ

NWM owns the entire right column — we're the only brand with a coherent ladder from $49 CRM to $2,490 fCMO, and all of it is AI-native. At the new price points, the Starter tier ($249) is now *below* HubSpot Starter, which changes the "HubSpot alternative" fight from parity-play to clear undercut.

6.2 Feature Matrix

Capability	NWM	HubSpot	GHL	ActiveCamp	Chief Out.	Drift	Brevo	Pipedrive	AI shops

6.3 Battlecards

vs HubSpot Marketing Hub

They say	We say
"HubSpot is the industry standard."	"It's 2020's standard. HubSpot costs $3,600+/mo for the Pro tier and then you still need an agency to run it. We're $249–$2,490 for the agency AND the software, and we're tuned for ChatGPT citations — which is where 15% of SMB search already happens."
"HubSpot has 1,400 integrations."	"You need three. We set them up in week one. How many of those 1,400 does your team actually use?"
"HubSpot's AI features are improving."	"We built the company AI-first. They're retrofitting. Ask them: can you name one client getting cited in ChatGPT because of HubSpot AI? We publish ours every month."

vs GoHighLevel

They say	We say
“GHL gives you white-label CRM for your agency.”	“That’s their model — sell you software, make you the agency. We ARE the agency. You get the software AND strategy AND execution for less than GHL agency tier + a CMO hire.”
“GHL is cheaper at scale.”	“Cheap CRM + no strategy = expensive mistake. Show me a GHL user driving $1M ARR from AEO. We have case studies.”
“GHL has snapshots for every niche.”	“Templates are commodities. What’s your positioning? Your message? Your ICP? GHL doesn’t answer that. We do.”

vs Traditional Fractional CMO (Chief Outsiders, Marketri)

They say	We say
“We bring 25 years of enterprise experience.”	“Great — for a $50M company. You’re quoting $18k/mo. We do the same strategic thinking at $249–$2,490, and we execute.”
“A human CMO understands your brand.”	“So does ours — Carlos leads every engagement. Difference: we don’t bill by the hour because our agents do 80% of the execution work.”
“AI can’t replace senior marketing judgment.”	“Correct. That’s why Carlos leads every account. AI handles the 40 hours/week of execution grind. You get judgment *on top of* speed, not one or the other.”

6.4 Market Context 2026

Demand-side shifts

- (Similarweb Q1 2026). Perplexity + Claude.ai add ~4%.
- Google AI Overviews now appear on ~60% of commercial-intent queries — organic CTR down 34% YoY.
- Gartner 2026 SMB survey: for vendor shortlists.
- TikTok search + YouTube Shorts are the #1 and #2 discovery channels for B2B buyers under 35.

Supply-side shifts

- The 2024 wave of “ChatGPT wrapper” agencies is collapsing — no moat, no retention.
- HubSpot / Salesforce Marketing Cloud are bundling AI but keeping pricing at enterprise tiers.
- Fractional work grew 38% YoY — CMO is the fastest-growing fractional role.
- Agency headcount models are breaking — agencies that cut 30% of staff with AI see 40%+ margin jumps.

NET

Whoever packages AEO + fractional CMO + owned software into one retainer in the next 12 months owns the category.

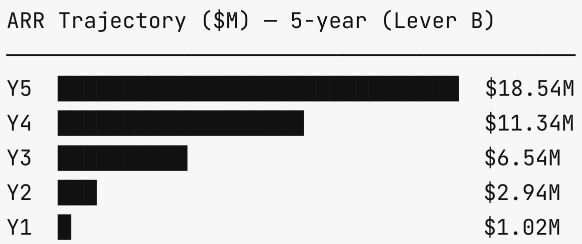
07 5-Year Revenue Projection

LEVER B (MIX SHIFT) — CHOSEN BY CARLOS 2026-05-21

Retainer base locked at ~45–520 clients (Premium-weighted); platform & project revenue increased. Assumptions: Premium NRR 110% (upsells + expansion); platform NRR 100%; headcount ramp 1→3→6→10→14 humans; Y1→Y2 growth +260% clients (ops scale), decelerating to +52% by Y5 as sales capacity saturates. Rationale: Premium tier 10.1x LTV:CAC vs Starter 3.1x; shift maximizes cash generation and payback velocity.

Metric	Y1 (Apr 27)	Y2 (Apr 28)	Y3 (Apr 29)	Y4 (Apr 30)	Y5 (Apr 31)
Retainer clients	45	110	220	360	520
Avg retainer ACV	$1,476	$1,550	$1,620	$1,680	$1,750
Platform + white-label	45	95	180	280	400
Platform avg ACV	$280	$300	$320	$340	$360
Total paying clients	90	205	400	640	920
MRR (exit)	$85,000	$245,000	$545,000	$945,000	$1,545,000
ARR	$1.02M	$2.94M	$6.54M	$11.34M	$18.54M
Gross margin	72%	74%	76%	77%	78%
GM $	$734k	$2.18M	$4.97M	$8.73M	$14.46M
S&M % of ARR	28%	22%	18%	15%	13%
R&D % of ARR	12%	14%	13%	12%	11%
G&A % of ARR	8%	7%	6%	5%	5%
EBITDA	$245k	$950k	$2.54M	$4.68M	$8.20M
EBITDA margin	24%	32%	39%	41%	44%

Metric	Y1 (Apr 27)	Y2 (Apr 28)	Y3 (Apr 29)	Y4 (Apr 30)	Y5 (Apr 31)
Headcount (humans)	1	3	6	10	14
AI agents	12	24	40	60	80
Clients per human	90	68	67	64	66



08 12-Month Financials

Month-by-month build

Month	Retainer clients	Platform	Resellers	MRR	Cumulative
M1 (May 26)	3	8	1	$9,400	$9.4k
M2	6	14	2	$18,500	$27.9k
M3	10	20	4	$30,000	$57.9k
M4	14	26	6	$41,500	$99.4k
M5	18	30	8	$51,000	$150.4k
M6	22	34	10	$60,000	$210.4k
M7	26	37	12	$67,500	$277.9k
M8	30	40	13	$73,000	$350.9k
M9	34	42	14	$77,500	$428.4k
M10	38	43	15	$80,500	$508.9k

Month	Retainer clients	Platform	Resellers	MRR	Cumulative
M11	42	44	17	$83,000	$591.9k
M12	45	45	18	$85,000	$676.9k

Revenue mix at Month 12 LEVER B (MIX SHIFT)

LEVER B CHOSEN BY CARLOS 2026-05-21

Keep retainer base at 45 clients, but concentrate on Premium ($2,490; 18 clients) and Growth ($999; 20 clients) with minimal Starter (7 clients as funnel only). Increase platform ARPU (mix shift to CRM $249 and $449). Add project work. Result: $85k M12 MRR exit with Premium-driven unit economics (10.1x LTV:CAC, 1.8-mo payback).

Stream (Lever B — M12 mix)	Clients/units	Unit price	Monthly $	% of MRR
fCMO Premium	18	$2,490	$44,820	53%
fCMO Growth	20	$999	$19,980	23%
fCMO Starter (wedge)	7	$249	$1,743	2%
Platform CRM $249	20	$249	$4,980	6%
Platform CRM $449 (white-label)	12	$449	$5,388	6%
Project work (4/mo × $2,500)	4	$2,500	$10,000	12%
Total MRR	**~90 clients**		**$86,911**	

Retainer avg ACV = (18×$2,490 + 20×$999 + 7×$249) / 45 = . All-in avg (90 clients) = . Retainer revenue = 68% of MRR.

Retainer NRR 110% (via Starter→Growth upgrades, Growth→Premium expansion, higher ad spend). Platform NRR 100%. Y1→Y2 client growth +260% (retainers 45→110) as ops capacity scales; decelerating thereafter as hiring gates capacity.

09 Cohort Economics — LTV/CAC

Tier	Price/mo	GM	Tenure	LTV	Target CAC	LTV:CAC	Payback
NWM CRM $49	$49	85%	11 mo	$458	$140	3.3×	3.4 mo
NWM CRM $249	$249	80%	14 mo	$2,789	$650	4.3×	3.3 mo
NWM CRM $449	$449	78%	18 mo	$6,304	$1,100	5.7×	3.1 mo
fCMO Starter	$249	68%	11 mo	$1,862	$600	3.1×	3.6 mo
fCMO Growth	$999	70%	14 mo	$9,790	$1,500	6.5×	2.2 mo
fCMO Premium	$2,490	72%	18 mo	$32,270	$3,200	10.1×	1.8 mo

RULE ENFORCED

Reject any channel under 3× LTV:CAC or over 6mo payback.

```
Cohort Retention Curve — % of original cohort remaining
────────────────────────────────────────────────────────────
Month:    0    3    6    9    12   18   24
CRM $49        100→ 78 → 58 → 44 → 34 → 18 → 10
CRM $249       100→ 88 → 74 → 62 → 52 → 34 → 22
CRM $449       100→ 92 → 82 → 72 → 64 → 46 → 32
fCMO Starter   100→ 85 → 70 → 58 → 48 → 28 → 16
fCMO Growth    100→ 91 → 80 → 70 → 62 → 44 → 30
fCMO Premium   100→ 94 → 86 → 78 → 72 → 58 → 44
```

fCMO Premium retains like enterprise SaaS. Every Premium client is worth ~17× a Starter client. This sharpens the upsell priority — Starter is now a wedge into Premium, not an endpoint. Don't optimize Starter for retention; optimize it for .

10 Cost Structure (Y1)

Line item	Monthly	Annual
Infrastructure (hosting, SaaS, LLM API)	$1,800	$21,600
Paid media (own lead gen, ramping)	$3,000–$8,000	$72,000
Content production (tools, stock, video)	$600	$7,200

Line item	Monthly	Annual
Legal / accounting / Stripe+MP fees	~3% of revenue	~$20,000
Contractors / human editors	$1,500	$18,000
Founder draw (Carlos, starts M4)	$6k → $12k	$96,000
Total OpEx (Y1)		**~$235,000**

65%+ after founder compensation.

Cash-flow triggers

- Cash-flow positive
- Founder comp scales to $10k/mo
- First contractor hire (only if >40 active retainers)
- Evaluate outside capital. Default answer: *no*. Bootstrapped is the moat.

11 Scenario Planning

Scenario	Y1 ARR	MRR exit	Clients	Trigger conditions
BEAR	$480k	$38k	58	AEO adoption slows (<10%); Premium churn accelerates to 8%+/mo; Anthropic API costs +40%; top-of-funnel dries up
BASE	**$1.02M**	$85k	90	AEO hits ~15% of search; Premium cohort 6% mo churn (per plan); 3 lighthouse case studies by M6; blended CAC <$1,200
BULL	$1.64M	$137k	135	AEO hits 22%+; Premium cohort retention 95%+ (viral proof); 2 partner channels > 25% of pipeline; blended CAC <$800

Kill-switches (Lever B, smoothed 2026-05-21)

- MRR ≥ $28k. If MRR < $28k by Jul 31 → pause Starter tier entirely, concentrate all sales on Growth ($999) + Premium ($2,490) + white-label ($449). Rationale: At new pricing, Starter drives low volume; Premium's 10.1x LTV:CAC justifies concentrated effort. Target 14 retainers + $38k MRR at base case.
- If CAC on Premium > $3,800 for 2 consecutive months → pause paid media on Premium; revert to organic + partner channels only.

- If Premium cohort monthly churn > 8% (vs. 6% baseline) → pause all Premium acquisition, conduct QBRs on at-risk accounts.
- If any single channel > 60% of Premium logos → force diversification; pause that channel for 60 days.

12 Risk Register

#	Risk	Likelihood	Impact	Score	Mitigation
1	AEO category matures faster than we can own it	High	High	9	Publish 40+ AEO studies Y1; become cited source
2	Solo-founder bus factor (Carlos)	Med	Critical	9	Document SOPs; hire Ops by M9; cross-train agents
3	OpenAI/Anthropic API cost spike	Med	High	6	Multi-model routing; 30% cost buffer in pricing
4	HubSpot/GoHighLevel launches “AI CMO” bundle	High	Med	6	Out-ship them; own “fCMO + AEO” vertical
5	Mercado Pago / Stripe account suspended	Low	Critical	5	Redundant rails; PayPal backup
6	LATAM FX volatility vs USD pricing	Med	Med	4	Price in USD; hedge 60-day receivables
7	Client churn concentration (>20% one sector)	Med	Med	4	Cap any sector at 25% of ARR
8	Programmatic SEO pages deindexed by Google	Med	Med	4	Keep pages unique + human-edited top pages
9	Fractional CMO category commoditizes	High	Low	3	Premium tier expansion; productize outcomes
10	PR backlash on “AI replacing marketers”	Low	Med	2	Messaging: AI-augmented, not AI-only

13 Operations Plan

Tech stack (as-is)

Layer	Tech
Public site	Static HTML/CSS/JS
CRM	crm-vanilla (vanilla JS — zero framework risk)
API	PHP (api-php/)
Payments	Stripe (US/global) + Mercado Pago (LATAM)
Automation	n8n templates
Video	Video Factory
Analytics	GA4 + custom dashboard
Agents	Claude Agent SDK (12 roles)

Retainer delivery model

- Onboarding sprint — audit, positioning doc, 90-day plan
- Execution ramp — content calendar live, ads live, CRM configured
- Weekly exec call + Slack async + monthly performance review
- Strategy reset + OKR refresh

14 Team

Carlos Martinez — CEO, Founder, sole full-time operator.

AI agent staff (12 agents)

Agent	Function
CMO	Brand, demand gen, content
Sales Director	Outbound, pipeline, close
Product Manager	CRM/CMS roadmap

Agent	Function
Engineering Lead	Platform code, deploys
Content Strategist	Editorial calendar, AEO
Creative Director	Visual design, brand assets
Data Analyst	Attribution, dashboards
Operations Manager	Delivery, workflows
Customer Success	Onboarding, retention
Finance Controller	Cash, forecasts, invoicing
Project Manager	Cross-team execution
CEO Assistant	Exec support, calendaring

Hiring plan

- M6: First fractional contractor (designer or CSM, ~10 hrs/week)
- M9–12: Second human hire only if retention/CSAT demands it
- Goal: Stay under 3 humans until $1.5M ARR

15 Milestones & KPIs

12-month milestones

Quarter	Milestone	Definition of done
Q2 2026	First 10 retainer clients	10 MSAs signed
Q2 2026	White-label program launch	5 resellers signed
Q3 2026	$30k MRR	Monthly invoice run confirmed
Q3 2026	12 case studies published	Live on site + citation schema
Q4 2026	$60k MRR, cash-flow positive 6mo running	P&L audit

Quarter	Milestone	Definition of done
Q4 2026	Top-3 AEO citations on 15 target queries	Quarterly citation audit
Q1 2027	$85k MRR / $1M ARR run-rate	Sustained 3 months
Q1 2027	90%+ logo retention on retainer	CRM cohort report

North-star KPIs (monthly)

1. MRR (and growth rate)
2. Retainer net retention — target 105%+
3. CAC payback period — target under 4 months
4. AEO citation share on 20 target queries
5. SQL → close rate — 3.3% retainer / 19% platform
6. Cash runway — always 6 months minimum

KILL CRITERIA (RE-PLAN IF TRIGGERED)

- MRR growth <15% MoM for 2 consecutive months after M3
