Sales Simulation · AEO Audit edition · v1 · 2026-05-11

\$997 · COLLAPSED 3-STAGE FUNNEL

The entry hook — \$997 AEO Audit. No proposal. No negotiation. Just a written report in 48 hours.

This is NWM's collapsed sales motion for the AEO Audit. Buyer self-serves via Stripe Checkout, an AI agent runs the audit overnight, Carlos reviews and approves, and an 18-page PDF lands in their inbox within 48 hours of payment. The conversion goal isn't the \$997 — it's the upgrade to CMO Standard or Premium within 90 days, with the full \$997 credited forward.

BUYER	ORG	PRODUCT
Jamie Test	Jamie Test PLLC (solo)	AEO Audit
PRICE	DELIVERY SLA	CYCLE
\$997 one-time	48h written	2 days · purchase→delivery
LEAD SOURCE	UPGRADE WINDOW	
Organic search	90 days (100% credit)	

1 · New Lead	2 · Audit Delivered	3 · Closed
Stripe Checkout · paid \$997 · no-touch	cmo-agent runs · Carlos approves · 48h SLA	Upgrade · or 90-day nurture

What this funnel skips

Versus CMO Standard/Premium, the audit collapses 5 stages into "just deliver and follow up."

What's removed	Why
Discovery call	Buyer's inputs come from the Stripe Checkout form (firm name, practice areas, target cities). Audit runs without a conversation.
Proposal	The audit IS the deliverable. No proposal because there's nothing to propose — the price is fixed at \$997.
Negotiation	No price negotiation on a \$997 fixed product.
Engagement letter	One-time service order auto-accepted at Stripe Checkout (terms shown before payment).
NDA	Audit is built from public-facing data only (the firm's website + answer-engine queries). No confidential client data exchanged.
Subscription	One-time charge, no recurring billing.
Kickoff call	Audit is async. Optional 15-min review call offered after delivery if buyer wants one.

The economic role of the AEO Audit: It's a paid lead-gen mechanism. NWM breaks even on the \$997 (it costs ~\$650 of cmo-agent + Carlos review time). The real value is the ~30% upgrade rate to CMO retainer within 90 days, where the \$997 credits forward.

New Lead — Stripe Checkout, no-touch

TRIGGER · STRIPE CHARGE SUCCEEDS

Jamie Test, solo attorney, finds NWM via organic search ("AI marketing for solo attorneys"). She reads the AEO methodology page for 4 min, lands on the legal-services hub, then clicks the \$997 audit CTA on the pricing page. Stripe Checkout collects firm name, practice areas, and 3 target cities. Payment clears at 08:54. No human at NWM has interacted yet.

3/15

The cmo-agent picks up the audit task at 09:01 (7 min after payment). Runs 15 prospect queries across ChatGPT, Claude, Perplexity, Gemini for Jamie's 5 practice areas. By 14:22 same day, the AI scan is complete. Carlos reviews the raw output overnight, adds strategic recommendations, and approves for delivery. The 18-page PDF lands at 07:00 on day 2 — well inside the 48h SLA. Jamie opens it 3 hours later and spends 22 minutes on the document.

Jamie

Opened audit · 22 min on document · downloaded twice

3

Closed — upgrade or 90-day nurture

TRIGGER · 90-DAY WINDOW OPENS

Three days after the audit lands, audit-3 fires: "Did the audit make sense?" Jamie replies honestly — helpful, but not ready (solo budget). Carlos confirms the \$997 credit holds for AEO Starter at \$249/mo or any CMO retainer. Deal is marked Closed but stays in the 90-day upgrade window. If she doesn't upgrade by day 90, re_engagement nurture takes over — the audit credit is durable while she has an active retainer at any point.

OWNER	TIME BUDGET	90-DAY WINDOW

CRM · DASHBOARD Dashboard shows the \$997 revenue · no scheduled kickoff (no upgrade yet)

ACTIVITY LOG

2026-04-18 11:08	Jamie	"Helpful. Not ready to commit yet."
2026-04-18 11:42	Carlos	"AEO Starter at \$249 is a fit when you are ready · \$997 credits forward."
2026-05-11 09:00	system	Moved to Closed · re_engagement nurture (90-day check back) · audit credit retained

2 artifacts (vs. 3–5 for retainers)

No engagement letter, no NDA, no proposal — just the audit report and the receipt.

Artifact 1 · AEO Audit Report (18 pages, cover excerpt shown)

The deliverable itself. Scores Jamie's firm at 14/100 vs. 67 for the top competitor in her market. Names exactly which 4 of 5 practice areas are missing from ChatGPT citations.

Recommends a 90-day fix path that maps directly to AEO Starter or CMO Standard. Front-loads the \$997 audit credit so the upgrade math is obvious.

AEO CITATION AUDIT · 18 PAGES · COVER EXCERPT

How Jamie Test PLLC appears in answer engines today

Tested 15 practice-area & location queries across ChatGPT, Claude, Perplexity, Gemini · April 13–15, 2026

AEO Citation Index — your score

67/100

PRACTICE AREAS CITED

1 of 5

"Estate planning" only · in 2 of 4 engines

CITATION GAP VS. LEADER

-53 pts

Closeable in ~90 days with focused content

1 · What we tested

We ran 15 real prospect queries across ChatGPT (free + Plus), Claude (Sonnet 4.5), Perplexity, and Gemini — three queries per practice area, varied by location and intent. Each citation was scored on:

- **Inclusion** — does your firm appear in the answer?
- **Position** — first mention, second, footnote-only?
- **Context** — is your firm cited as authoritative, or just listed?

2 · Practice-area-level results

Practice area	ChatGPT	Claude	Perplexity	Gemini	Score
Estate planning	CITED	CITED	FOOTNOTE	MISSING	62
Probate	MISSING	FOOTNOTE	MISSING	MISSING	18
Trust administration	MISSING	MISSING	MISSING	MISSING	0
Will contests	MISSING	MISSING	FOOTNOTE	MISSING	8
Tax planning (estate-focused)	MISSING	MISSING	MISSING	MISSING	0

3 · The top-3 reasons you're missing

Reason 1 · No FAQPage schema on practice pages. ChatGPT cites firms with structured FAQ markup 3.2× more than firms without. Your 5 practice pages have zero schema today. This is the single biggest leverage point.

Reason 2 · Anchor pages are 280–420 words. Citation-worthy practice content runs 1,800–2,200 words with question-answer structure. Your pages are short brochure copy. Answer engines pass them over for longer, deeper alternatives.

Reason 3 · No location specificity. Your pages name "Jamie Test PLLC" but never name the city you serve. Engines like Perplexity weight geo-explicit content for location queries. This is a 30-minute fix per page.

4 · The 90-day fix path (recommended)

- **Weeks 1–2:** Add FAQPage schema + 5 high-intent FAQs to each of your 5 practice pages. Estimated lift: 25–40 AEO score points.
- **Weeks 3–6:** Expand each practice page to 1,800+ words with question-answer structure. One page per week.
- **Weeks 7–10:** Add location-specific landing pages for your top 3 cities × 2 anchor practice areas (6 pages).
- **Weeks 11–12:** Re-audit and adjust. Expected final score: 55–70/100 (matches top-3 competitor).

5 · What this would cost if NWM did the work

The above plan maps directly to **NWM's AEO Starter (\$249/mo)** or **CMO Standard (\$1,490/mo)**. AEO Starter executes 100% of the citation plan; CMO Standard adds paid ads, email, and intake automation on top.

YOUR \$997 AUDIT CREDITS FORWARD

If you upgrade to AEO Starter or any CMO retainer within 90 days, the full \$997 you paid for this audit credits toward your first invoice. No expiration if you have an active retainer.

6 · Methodology & data

Full query log, raw response transcripts, and competitor scoring is included in pages 11–18 of this audit (omitted in this cover excerpt). All tests run on standard accounts — no API tier, no logged-in context — to match what a real prospect would see.

Audit playbook

3 stages, mostly automated. Where human time goes.

Stage	Owner	SLA	Time per audit	Tool	Artifact
1 New Lead	System	audit-1 email < 2 min	0 (auto)	Stripe Checkout · Workflow	Service order (auto-accepted)
2 Audit Delivered	cmo-agent + Carlos	Delivered < 48h	~30 min Carlos review	cmo-agent · Documents	18-page Audit PDF
3 Closed	Carlos + re_engagement	audit-3 follow-up < 5 days	10 min email exchange	Email Builder	—

Outcomes (NWM internal target rates)

Outcome	Target rate	What happens
Upgrade within 30 days	~20%	Best case · credit applies to first invoice · upgrade convo handled by sales-director or Carlos
Upgrade in days 31–90	~10%	Audit insights digested · prospect ready · credit still applies
Closed-lost after 90 days	~30%	re_engagement nurture continues quarterly · audit credit dormant but redeemable when they return
Nurture indefinitely	~40%	Stay in monthly AEO Brief broadcast list · low-touch · ~5% of these convert in year 2

Failure modes

Failure	Trigger	Action
Audit delivery slips past 48h	Carlos doesn't review in time	Auto-extend SLA by 24h via apology email + 10% discount on next retainer

Failure	Trigger	Action
Buyer reports audit was wrong	Disputes a citation finding within 7 days	cmo-agent re-runs the queries · Carlos manually verifies · revised audit delivered within 48h · refund if findings can't be reproduced
Stripe charge disputed	Chargeback initiated	finance-controller responds with Service Order acceptance proof + delivery confirmation · refund offered if delivery was >48h late
Audit credit expiry confusion	Buyer thinks credit expired	Restate the rule: credit is durable while ANY retainer is active · honor it at all times unless 12+ months elapsed

The audit IS the proposal.

\$997 in. 48 hours to deliver. 30% upgrade rate within 90 days. The audit funnel pays for itself even when nobody upgrades — and when they do, the retainer LTV is \$17k–\$36k.
